We hear of considerable sales of securities at private bargains for foreign account, including Railroad Bonds. It is very important, however, that it should be understood that the greatest diserimination is evinced in the selection of Railroad Bonds by foreign capitalists. None but strictly first class trunk roads on the great lines of East completed or nearly completed, and where the each subscriptions have been sufficient to build the road up to the iron, meet with any favor. The full appreciation of this fact by the getters up of innumerable railroad projects on second clus s and sited routes all over the country, will save them much disappointment and an unavailing journey to this City. Even under an active foreign demand for Railroad Bonds there is no market here for the Bonds of railroads built on Bonds, and beginning and ending nowhere. It is better to understand at once that Railroad Bonds cannot be negotiated in this market unless there are at least cash subscriptions enough to build the road up to the iron, and

of which \$2,302,643 were of Dry Goods, and \$1,700,-335 of general Merchandise, including \$316,596 of Tea, and \$357,192 of Coffee. The exports amount to \$1,089,522. The property of the St. Lawrence Min-

ing Company, the stock of which has recently been introduced at the Stock Board, consists of 1,298 deres in the town of Macomb, about twenty miles from Ordershauch Linear Linear Company, the stock of which has recently been stock on hand. from Ogdenaburgh. Upon that portion where the mines are located, the Company have all the build-ings necessary for the prosecution of the business of mining, including the melting of the ore. The Company have expended about \$73,000 on the lands, exploring the mines, &c., and it is stated that the actual expenses of opening and working the mines have been reimbursed by the ore raised in sinking the shafts. Mr. F. B. Hough, Minerolagist, who visited the location in November last, gives a full description of the loces, and adds: "At the rate of ten tuns per fathom from the quantity thus far yielded by the workings, there exists 2,400 times of ore of at least twenty-five per cent. Galean in the yielded by the workings, there exis. 2.400 tuns of one of at least twenty-five per cent. Galean in the first level of sixty feet between the shafes. Besides this, the vein has been opened both east and west, which warrants the beiner that it will admit of profitable working for over 1,000 feet. As veins of metallic creatin primitive lodes are known to constitute downward to an unimited depta, it is highly probable that this will admit of profitable working to a great depth."

In addition to the Western Vermont Railroad Bonds to be sold on Wednesday by Mr. Dra-per, he will also offer \$25,000 Vermont Valley Railroad Seven P cent. Mortgage Bonds. This railroad extends from Brattleboro' to Bellows' Falls, along the Connecticut River, about 24 miles in length. It s completely finished and fully equipped at a cost of between one million and eleven hundred thousand dollars. The road, with its equipment, is mortgeged to Robert Schuyler, Gouverneur Merris and Elihu Towesend, as Trustees, to secure the sum of \$500,000, the mortgage being executed by the authority of the Stockholders as well as the Directors of the Company, and has no other debt. All the Bonds are dated April 1, 1850, and have ten years to run. Upward of \$100,000 of these Bonds are issued at Six the remainder at Seven P cent. Coupons for interest are payable in the City of New-York semi-annually, April 1 and October 1. This road forms part of the line of Connecticut River Valley Railroad, and from Bellows' Falls—where the Rutland and Burlington, the Sullivan and the Cheshire Railroads meet and terminate—it forms the connecting link of all these roads with the City of New-York by the Springfield, Hartford and New-Haven Roads. It has been in operation a short time, and the arrangement for through lines to the White Mountains, Burlington, Vermont and New-Hampshire, for the coming season having been completed, a large amount of business must be secured. thu Townsend, as Trustees, to secure the sum of

## FOREIGN MARKETS.

Messrs. Wright, Gandy & Co say, under the date of Liverpool, Feb. 24:—
Corron on Saturday was slightly affected by the news of the downfall of the Russell Administration, but there was no giving way in prices, nor did holders evince a more eager disposition to realize, the market closing firm but quiet. The late large operations having alloyded relief to those desirous of realizing, other helders, in view of the light exports for American ports as reported by the advices per Kingava, (arrived vesterday,) the diminishing stock here, and the prosperous state of trade in Manchester, were induced to withhold further sales, and the market his cansequently been more scantily supplied both vesterday and to day with qualities suitable for the demand, prices have a hardening tencency, especially Midding Orieans, which are in request, and command full rates, as much owing to the prospect of easterly winds prevailing and keeping out supplies as any other cause.

The sales on Saturday were 6,000, which include 3,900 American, 500 speculation and export; the sales on Moaday were 7,000, which include 6,300 American, 500 speculation and export. Import for same time about 15,000 bales, of which 12,000 are American.
